

Coleman Gross, M.D.

Dr. Gross is the Medical Director of AVIYA Clinical Research and Development, Inc. a firm that provides clinical development expertise and services to early stage biopharmaceutical companies. Dr. Gross has been involved in biomedical research for over 14 years. His experience includes all stages of research from bench experimentation through clinical trials. Prior to founding AVIYA, Dr. Gross was the Director of Clinical Affairs at Calyx Therapeutics where he was responsible for all aspects of the company's clinical development programs. Before joining Calyx, he was a full time faculty member at UCSF and Stanford University.

Within the biopharmaceutical industry, Dr. Gross has led multidisciplinary teams and has been responsible for the development of numerous clinical drug candidates. He has overseen clinical candidate optimization, qualification and selection of a number of drugs entered into clinical development in several therapeutic areas. He has played a central role in non-clinical safety assessments for many drugs including ones successfully entered into clinical trials. Dr. Gross has produced IND submissions and other regulatory submissions in multiple therapeutic areas. In addition to FDA submissions and interactions, he has experience with regulatory agencies in Europe and Asia and has a solid knowledge of GCP, FDA, ICH regulations and guidelines. Dr. Gross has considerable experience in clinical development strategy including development planning, clinical trial design, and protocol development. Dr. Gross has participated in numerous licensing projects including critical evaluation of in-licensing candidates and development of out-licensing dossiers.

Dr. Gross received a bachelor's degree from the University of California Berkeley and an M.D. from the University of Southern California. He completed an internal medicine residence at UCLA and a fellowship in endocrinology at Stanford and is board certified in both disciplines. He has authored numerous scientific papers and book chapters.
